**Needs Statement:** Only 22% of agency funding is public sector. Core impact programs require continued grantmaking and philanthropy. Reducing Achievement Gaps (educational, family assistance, food security and social achievement for poor, immigrant children and families) requires an additional \$30-40,000 per year as a result of regularly sunseting grants. Healthy Aging, Patient Navigator, chronic disease management and geriatric care management services for elders and caregivers require \$50,000 annually to meet impact goals; the JFS Family Assistance Program requires \$40,000 additional to meet objectives related to job and career development for clients. Foundation and donor support is needed as many clients receive free or heavily subsidized services without the possibility of insurance reimbursement or government funding for these essential programs.

**Impact Statement:** The Strategic Directions that is included in Other Documents speaks to JFS' focus upon standing up for those left behind in society and constantly re-tooling to meet changing community needs.

JFS' leadership is committed to significant and continued organization improvement that includes constant review of financial health metrics. The programmatic goals are to ensure that all services of the agency demonstrate clear purpose, measurable impacts, high team performance, and responsiveness and relevance to the community's rapidly changing needs and to reach those in a responsible fiscal manner.

The past year's accomplishments include:

1. Implemented first stages of comprehensive, agency wide performance and knowledge measurement and impact system
2. Implemented initial stages of the organization moving to one data collection and RMS system via Salesforce
3. Attracted philanthropic support for JFS' integrated model of academic and family assistance services for low income, immigrant children and families.
4. Implemented a new Board Governance/leadership committee to strengthen engagement, leadership development and performance.
5. Received a very positive review from JFS' largest stakeholder, Combined Jewish Philanthropies.

Upcoming and continuing goals:

1. Be at the forefront of services that respond to poverty in the Jewish community.
2. Be at the forefront of creating college access and pathways for low income first generation students throughout Metrowest in partnership with Framingham State University.
3. Growth of JFS' endowment fund to support its work in standing up for those left behind in society.
4. Pilot new components in JFS services for low income immigrant children and families.
