Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors
National Alliance on Mental Illness of Massachusetts, Inc.

Opinion

NATIONAL ALLIANCE ON MENTAL ILLNESS OF MASSACHUSETTS, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The National Alliance on Mental Illness of Massachusetts, Inc. (the Organization) is a Massachusetts corporation exempt from tax under Section 501(c)(3) of the Internal Revenue Code as a public charity. The purpose of the Organization is to improve the quality of life both for people with mental illnesses and for their families. The Organization's activities are funded primarily through grants, contributions and dues.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Net Assets and Recognition of Donor Restrictions

Contributions received are recorded as an increase in unrestricted or temporarily restricted net assets, depending on the existence or nature of any donor restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

Unrestricted - Those resources over which the Board of Directors has discretionary control. Designated amounts represent those revenues that the Board has set aside for a particular purpose.

Temporarily Restricted - Those resources subject to donor imposed restrictions that will be satisfied by actions of the Organization or passage of time.

Permanently Restricted Net Assets - Include contributions which require by donor restriction that the corpus be invested in perpetuity and only the income be made available for operations in accordance with donor restrictions.

When a donor restriction is satisfied, net assets are released and reported as an increase in unrestricted net assets.

Program Service Revenue – State Grant

The Organization has contracted with the Commonwealth of Massachusetts to provide services to the mentally ill. Revenue for this grant is recognized as costs are incurred and services are provided.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Organization considers all highly liquid debt instruments with an initial maturity of less than three months to be cash equivalents. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to certain limits. At times, cash in bank may exceed FDIC insurable limits.

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Equipment

Equipment is recorded at cost. Assets with an estimated life of more than one year and a historical cost in excess of \$1,000 are capitalized. Gifts of long-lived assets are reported as unrestricted support unless explicit donor stipulations specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulation about how long those assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed into service. Depreciation is computed using the straight-line method over the estimated useful life of the assets.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis on the statement of functional expenses. Accordingly, costs have been allocated among the programs, fundraising, and supporting services provided.

Income Taxes

The financial statements do not include a provision for income taxes because the Organization has been granted exempt status relative to federal and state corporate income taxes under Section 501(c)(3) of the Internal Revenue Code and applicable state codes. The Organization's 2010 through 2013 tax years are open for examination by the federal and state taxing authorities.

Method of Accounting

The financial statements of the Organization have been prepared on the accrual method of accounting. Accordingly, assets are recorded when the Organization obtains the rights of ownership or is entitled to claims for receipt and liabilities are recorded when the obligation is incurred.

Donated Assets

Donated marketable securities and other noncash donations are recorded at their fair value on the date of donation.

Donated Services

Donated services are recognized in the financial statements if the services enhance or create non-financial assets or require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation.

Accounts Receivable

Accounts receivable are recorded at net realizable value. Management considers all amounts to be fully collectible. Accordingly, no provision for uncollectible accounts has been established. The Organization determines delinquent accounts based on individual facts and circumstances. Historically, the Organization has not charged interest on accounts that are deemed to be delinquent.

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments

Investments in marketable equity securities with readily determinable fair values are stated at fair value. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the change in unrestricted net assets unless restricted by donor or law. Unrealized gains and losses on investments are recorded as changes in the respective category of net assets, depending on the existence or absences of donor restrictions.

Advertising

Advertising costs are expensed as incurred. Advertising costs charged to operations amounted to \$565 for the year ended June 30, 2013.

Fair Value of Financial Instruments

The Organization categorize its assets and liabilities measured at fair value into three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement. Assets and liabilities valued at fair value are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the organization has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at June 30, 2013.

Subsequent Events

In preparing these financial statements, the Organization has evaluated events and transactions for potential recognition or disclosure through December 4, 2013 the date the financial statements were available to be issued.
