## INDEPENDENT AUDITORS' REPORT

Board of Trustees  
The Boston Home, Inc.  
Boston, Massachusetts

We have audited the accompanying financial statements of The Boston Home, Inc., which comprise the balance sheets as of December 31, 2015 and 2014, and the related statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Trustees  
The Boston Home, Inc.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Boston Home, Inc. as of December 31, 2015 and 2014, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**THE BOSTON HOME, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**

Founded in 1881, The Boston Home, Inc. (TBH) is a nonprofit, specialized residence and center for care for adults with advanced multiple sclerosis and other progressive neurological diseases. TBH owns and operates a 96-bed skilled nursing facility located in Boston, Massachusetts.

A summary of TBH's significant accounting policies follows:

**Classification and Reporting of Net Assets**

The financial statements of TBH have been prepared on the accrual basis of accounting.

TBH's financial statement presentation follows U.S. generally accepted accounting standards which require that TBH report information regarding its financial position and operations according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. A description of the net asset classes follows:

**Unrestricted Net Assets** - represent the portion of net assets of TBH that is neither permanently restricted nor temporarily restricted by donor-imposed stipulations.

**Temporarily Restricted Net Assets** - represent contributions and other inflows of assets whose use by TBH is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of TBH pursuant to those stipulations.

Temporarily restricted net assets also include, under Massachusetts law, cumulative appreciation and reinvested gains on permanently restricted endowment funds that are subject to prudent appropriation by the board of trustees.

**Permanently Restricted Net Assets** - represent contributions and other inflows of assets whose use by TBH is limited by donor-imposed stipulations that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of TBH.

**Cash**

TBH maintains cash in bank deposit accounts that at times may exceed federally insured limits. TBH monitors its exposure associated with cash and has not experienced losses in such accounts.

Cash held by investment managers are considered part of investments given the expectation of near term reinvestment.

**Assets Limited as to Use**

Assets limited as to use that are required to meet current liabilities are reported as current assets and represent assets held in trust for residents.

**THE BOSTON HOME, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Accounts Receivable**

Accounts receivable are recorded net of an allowance for uncollectible accounts. The allowance is estimated from historical performance and projections of trends. Credit is extended to patients and collateral is not required. TBH determines delinquent accounts based on individual facts and circumstances. Historically, TBH has not charged interest on accounts that are deemed to be delinquent.

**Property, Plant, and Equipment**

Property, plant, and equipment acquisitions are recorded at cost, or if received by donation, at estimated fair market value at the time such assets were received. Depreciation is provided over the estimated useful lives of the respective assets on a straight-line basis as follows:

Buildings	24-50 Years
Building Improvements	3-40 Years
Equipment and Software	3-20 Years
Land Improvements	3-20 Years
Motor Vehicles	5 Years

Expenditures for major renewals and improvements are capitalized while expenditures for maintenance and repairs are expensed as incurred.

**Investments and Investment Income**

Investments are carried at fair value. Fair value is determined as per the fair value policies described later in this section. Investment income (interest and dividends) and realized gains and losses are included within excess (deficiency) of revenues over expenses and nonoperating gain (loss). Unrealized gains and losses on investments are excluded from the excess (deficiency) of revenue over expenses and nonoperating gain (loss), and reported as a separate change in net assets, except those declines in fair value that are judged to be other-than-temporary, are reported as realized losses.

Realized and unrealized gains and losses on investments relating to permanently restricted investments, along with donor-imposed restricted income, are added to or deducted from temporarily restricted net assets or permanently restricted net assets, depending on the type of restriction.

**Interpretation of Relevant Law and Spending Policy**

The board of trustees of TBH (the board) has interpreted Massachusetts general law as requiring investment returns on permanently restricted net assets to be retained in a temporarily restricted net asset classification until appropriated by the board and expended. Massachusetts general law allows the board to appropriate as much of net appreciation of permanently restricted net assets as is prudent considering TBH's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions.

**THE BOSTON HOME, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Interpretation of Relevant Law and Spending Policy (Continued)**

The spending rate of TBH's endowment fund is 70% of prior year spending, adjusted for inflation, plus 30% of the long-term annual rate of spending applied to the then current market value of the fund subject to the limitation that in any given year, the amount of such spending is not to exceed 5% of the rolling five-year average of the market value of the fund at the end of the prior year. The board may also, at their discretion, authorize spending greater than the spending methodology allows in order to meet operational or capital needs of the organization or as other special circumstances dictate. TBH's investment policy was revised in February 2015 to allow retroactive application to January 1, 2014 of a new policy to track cumulative over and under-spending for informational purposes.

During the years ended December 31, 2015 and 2014, the board approved the transfer of \$2,100,000 and \$2,000,000, respectively, from the endowment fund to support operations; such amounts were within the spending policy limits. A portion of net realized gains and net appreciation is allocated to operations in accordance with TBH's investment policies and procedures.

The investment objective of TBH is to provide a stable supply of funds for operations and capital improvements consistent with the preservation of purchasing power for the endowment. TBH has adopted the following asset allocation policy:

	<u>Allocation Policy Targets</u>
Diversified Growth	70.00%
Inflation Sensitive	15.00%
Deflation Hedge	15.00%

TBH engages professional investment consultants as approved by the board.

**Other-Than-Temporary Impairment of Investments**

TBH reviews its investments to identify those for which fair value is below cost. TBH then makes a determination as to whether the investment should be considered other-than-temporary impaired based on guidelines established in accordance with U.S. generally accepted accounting principles. In 2014, TBH recorded other-than-temporary impairments of \$193,193 on certain of its investments (see Note 6). No such impairments were recorded in 2015.

**Deferred Financing Costs**

The costs of obtaining financing are amortized over the term of the related loan.

**Obligation Under Interest Rate Swap Agreement**

TBH reports the value of its interest rate swap at fair value. Fair value is determined as per the fair value policies as described later in this section.

**THE BOSTON HOME, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Statement of Operations**

The statement of operations includes operating income (loss), and nonoperating gain (loss) including investment fees, the nonoperating portion of investment income and net realized gains and losses on investments. Changes in unrestricted net assets which are excluded from excess (deficiency) of revenues over expenses and nonoperating gain (loss) include unrealized gains and net assets released from restrictions for property, plant, and equipment.

**Net Patient Service Revenue**

Net patient service revenue is reported at the estimated net realizable amounts. Third-party revenues are recorded as indicated in Note 2.

**Contributions, Gifts, and Bequests**

Contributions, including unconditional promises to give, are recognized as revenue in the period received or promised. Conditional promises to give are not recognized until they become unconditional, that is, at the time when the conditions on which they depend are substantially met. Contributions to be received after one year are discounted at an appropriate discount rate commensurate with the risk involved.

Contributions received with donor-imposed restrictions are reported as revenues of the temporarily restricted net asset class when they are received. A reclassification to unrestricted net assets is made to reflect the expiration of such restrictions in the year the restriction is met. Contributions received with donor-imposed restrictions that are met in the same year as received are reported as revenues of the unrestricted net asset class.

Contributions of property and equipment without donor stipulations concerning the use of such long-lived assets are reported at fair value as revenues of the unrestricted net asset class. Contributions of cash or other assets to be used to acquire property and equipment with donor stipulations are reported as revenues of the temporarily restricted net asset class, and the restrictions are considered to be released at the time of acquisition of such long-lived assets.

Contributions of services are reported as revenues and expenses of the unrestricted net asset class at the fair value of the services received only if the services create or enhance a non-financial asset or would typically need to be purchased by TBH, if they had not been provided by individuals with those skills. Contributions of goods to be used in program operations are reported as revenues and expenses of the unrestricted net asset class at the time the goods are received.

**Advertising**

TBH expenses advertising costs as incurred. In 2015 and 2014, TBH incurred \$-0- and \$218, respectively, for advertising.

**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Tax Status and Uncertain Tax Positions**

TBH is qualified under Section 501(c)(3) of the Internal Revenue Code and is generally exempt from federal and state income taxes on related income. Given the limited taxable activities of TBH, management concluded that disclosures relative to tax provisions are not necessary.

TBH accounts for the effect of any uncertain tax positions based on a “more likely than not” threshold to the recognition of the tax positions being sustained based on the technical merits of the position under scrutiny by the applicable taxing authority. If a tax position or positions are deemed to result in uncertainties of those positions, the unrecognized tax benefit is estimated based on a “cumulative probability assessment” that aggregates the estimated tax liability for all uncertain tax positions. Interest and penalties assessed, if any, are accrued as income tax expense.

TBH has identified its tax status as a tax exempt entity as its only significant tax position; however, TBH has determined that such tax position does not result in an uncertainty requiring recognition. TBH is not currently under examination by any taxing jurisdiction. TBH’s federal and state income tax returns are generally open for examination for the three years following the date filed.

**Fair Value Measurements**

TBH reports required types of financial instruments in accordance with the fair value accounting standards. These standards require an entity to maximize the use of observable inputs (such as quoted prices in active markets) and minimize the use of unobservable inputs (such as appraisals or valuation techniques) to determine fair value. In addition, TBH reports certain investments using the net asset value per share as determined by investment managers under the so called “practical expedient.” The practical expedient allows net asset value per share to represent fair value for reporting purposes when the criteria for using this method are met. Fair value standards also require TBH to classify these financial instruments into a three-level hierarchy, based on the priority of inputs to the valuation technique or in accordance with net asset value practical expedient rules, which allow for either Level 2 or Level 3 depending on lock up and notice periods associated with the underlying funds.

Instruments measured and reported at fair value are classified and disclosed in one of the following categories:

*Level 1* - Quoted prices are available in active markets for identical instruments as of the reporting date. Instruments, which are generally included in this category, include listed equity and debt securities publicly traded on a stock exchange.

*Level 2* - Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Level 2 also includes practical expedient investments with notice periods for redemptions of 90 days or less.

**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2015 AND 2014**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**Fair Value Measurements (Continued)**

*Level 3* - Pricing inputs are unobservable for the instrument and include situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgment or estimation. Level 3 also includes practical expedient investments with notice periods for redemption of more than 90 days.

In some instances, the inputs used to measure fair value may fall into different levels of the fair value hierarchy and is based on the lowest level of input that is significant to the fair value measurement.

Market price is affected by a number of factors, including type of instrument and the characteristics specific to the instrument, as well as the effects of market, interest, and credit risk. Instruments with readily available actively quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. It is reasonably possible that change in values of these instruments will occur in the near term and that such changes could materially affect amounts reported in these financial statements. For more information on the fair value of TBH's financial instruments, see Note 6 - Fair Value of Financial Instruments.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and assumptions. Significant management estimates included in the financial statements relate to the allowance for doubtful accounts, estimated useful lives of depreciable assets, fair value of certain investments, fair value of interest rate swap contract, and the validity and completeness of satisfaction of donor restrictions.

**Self-Insurance**

TBH participates as a member of a partially self-insured plan for employee healthcare benefits under a retrospectively-rated policy whose ultimate annual premium is based primarily on the collective experience of participating members. These costs are accounted for on an accrual basis. Due to the nature of the estimated health insurance expense, it is reasonably possible that a change in the estimate will occur in the short term.

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED)**

**New Accounting Pronouncements**

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-03, Interest-Imputation of Interest (Subtopic 835-30), which simplifies the presentation of debt issuance costs. The amendment requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct reduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by this amendment. Additionally, the amortization of the debt issuance costs shall be included as a component of interest expense. The ASU, which will be retrospectively applied, is effective for financial statements issued for fiscal years beginning after December 15, 2015. The adoption of this guidance will decrease total assets and decrease total liabilities by the amount of the unamortized deferred financing costs. It is not expected to have a material impact on the organization's statement of operations or cash flows.

**Subsequent Events**

In preparing these financial statements, TBH has evaluated events and transactions for potential recognition or disclosure through May 26, 2016, the date the financial statements were available for issuance.

**NOTE 2 PATIENT SERVICE REVENUES FROM THIRD-PARTY PAYERS**

**Summary of the Payment Arrangements with Third-Party Payers**

**Medicaid – Standard Payments to Nursing Facilities**

TBH receives reimbursement from the Commonwealth of Massachusetts under a standard rate of reimbursement payment system for the care and services rendered to publicly-aided patients pursuant to regulations promulgated by the Center for Health Information and Analysis. Under the regulations, current year rates are a combination of actual base year costs blended with industry standards adjusted for inflation. The base year costs are subject to audit and may result in a retroactive rate adjustment for the current year.

**Medicare – Prospective Payment System**

TBH receives reimbursement for the care of certain patients under the federally sponsored Medicare Prospective Payment System (PPS), through an insurance intermediary. The federal rates utilize facility case-mix assessment data, completed by the Skilled Nursing Facility (SNF), to assign patients into Resource Utilization Groups (RUGS). SNF's must complete the assessments according to a specific time schedule designed for Medicare payment. SNF's that do not comply with this requirement will be paid at a default payment (the lowest of the federal rates) for the days of a patient's care for which the SNF is not in compliance.

**Medicare – Prospective Payment System (Continued)**

The PPS program mandates the implementation of fee schedules for SNF therapy services to residents not in a covered Part A stay and to non-residents who receive outpatient rehabilitation services from the SNF. The Centers for Medicare and Medicaid Services imposed a limit for both physical therapy (including speech therapy) and occupational therapy services, except for certain medical conditions.

**NOTE 3 CONCENTRATION OF CREDIT RISK**

**Accounts Receivable**

TBH grants credit without collateral to its patients, most of who are insured under third-party payer agreements. The mix of receivables from patients and third-party payers as of December 31 is as follows:

	2015	2014
Medicaid	\$ 732,325	\$ 709,624
Medicare	66,109	114,289
Private and Other Third-Party Payers	71,080	40,482
Less: Allowance for Doubtful Accounts	(60,703)	(51,352)
Accounts Receivable, Net	\$ 808,811	\$ 813,043

**Patient Service Revenue**

Approximately 87% and 89% of patient service revenue is received from Medicaid funding sources as third-party reimbursement of costs for the years ended December 31, 2015 and 2014, respectively.

**NOTE 6 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)**

Global Natural Resources Fund – Funds invest primarily in private partnerships in the oil and natural gas, farmland, timberland, and mining sectors.

Other Investments – Consist of an operating joint venture.

Beneficial Interest in Perpetual Trust – The fair value of beneficial interests in perpetual trusts are determined based on TBH's beneficial portion of the fair market value of the underlying assets in each respective trust. The underlying assets for the beneficial interests in perpetual trusts consist of marketable securities.

Fair value of financial instruments for which TBH did not elect the fair value option are as follows: cash, assets limited as to use, accounts receivable, certain contributions, accounts payable and other liabilities, accrued expenses, notes payable, and bonds payable. The fair values of such instruments have been derived, in part, by management's assumptions, the estimated amount and timing of future cash flows, and estimated discount rates. Different assumptions could significantly affect these estimated fair values. Accordingly, the net realizable values could be materially different from the estimates presented at December 31, 2015 and 2014. In addition, the estimates are only indicative of the value of the individual financial instruments and should not be considered an indication of the fair value of TBH.

Management has determined that fair value approximates carrying value for cash, assets limited as to use, accounts receivable, certain contributions, accounts payable and other liabilities, and accrued expenses given the short-term nature of these instruments. In addition, management has not assessed the fair value of its debt instruments as some of these instruments have special features that make them inherently costly or impractical to assess fair values. Management did not believe the cost of obtaining such information justified the benefit of such data; however, if such analysis was done, management does not believe that any significant change in fair value has taken place based on its credit position or the current interest rate climate compared to the time when issued.

TBH reviews its investments to identify those for which fair value is below cost. The organization then makes a determination as to whether the investment should be considered other-than-temporary impaired based on guidelines established in accordance with U.S. generally accepted accounting principles. In 2014, TBH recognized losses of \$193,193 related to declines in value that were other-than-temporary in nature on certain of our investments; no such losses were recorded in 2015. These losses are treated as realized losses in the statement of operations.

**NOTE 7 SPLIT-INTEREST AGREEMENTS**

TBH has received as contributions split-interest agreements in the form of perpetual trusts. In accounting for these arrangements, TBH has recorded the asset and has recognized permanently restricted contribution revenue at the fair market value of TBH's beneficial interest in the trust assets. Distributions received on the trust assets are recorded as unrestricted revenue in the statement of operations, unless otherwise restricted by the donor. Subsequent changes in fair value of the beneficial interest in the trust assets are recorded as net unrealized gains or losses. As of December 31, 2015 and 2014, TBH's proportionate share of the fair market value of the assets in these trusts amounted to \$535,150 and \$582,263, respectively.

**NOTE 8 ASSETS LIMITED AS TO USE**

Assets limited as to use that are required for obligations classified as current liabilities are reported as current assets. The total of \$120,254 and \$60,797 at December 31, 2015 and 2014, respectively, represents the accounts held in trust for residents. The funds are not available for use in operations.

**NOTE 9 BONDS PAYABLE**

A summary of bonds payable at December 31:

	<u>2015</u>	<u>2014</u>
2002 Tax-Exempt Variable Rate Demand Revenue Bonds due June 2032 issued via the Massachusetts Health and Educational Facilities Authority, principal payments due annually on June 1st.	\$ 12,065,000	\$ 12,580,000
Total	<u>12,065,000</u>	<u>12,580,000</u>
Less: Current Maturities	(530,000)	(515,000)
Bonds Payable, Net	<u>\$ 11,535,000</u>	<u>\$ 12,065,000</u>

On March 1, 2012, TBH modified its variable rate demand bonds which were secured by a letter of credit issued by a bank and wrapped by a Federal Home Loan Bank of Boston letter of credit. The modification converted the existing variable rate demand bonds to a new interest mode (Bank Purchase Mode) bearing interest at 67% of the sum of the one-month LIBOR rate plus 2% and secured by all business assets and general revenues of TBH excluding its endowment investments and Medicare receivables.

TBH has provided the bank with a negative pledge on its real estate whereby its real estate cannot be sold or mortgaged without the permission of the bank. The term of the Bank Purchase Mode is 12 years. The two existing letters of credit were retired at the time of modification.

**NOTE 9 BONDS PAYABLE (CONTINUED)**

The unamortized balance of deferred financing costs of \$217,609 and \$233,797 at December 31, 2015 and 2014, respectively, represents various costs incurred relative to the issuance and refinancing of the bonds. These costs are reported as deferred financing costs and are being amortized over the life of the related debt. Amortization expense was \$16,188 and \$16,183 for the years ended December 31, 2015 and 2014, respectively.

Annual maturities of bonds payable for the next five years and in the aggregate are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 530,000
2017	550,000
2018	570,000
2019	590,000
2020	610,000
Thereafter	<u>9,215,000</u>
Total	<u>\$ 12,065,000</u>

Total interest costs amounted to \$616,345 and \$642,786 for the years ended December 31, 2015 and 2014, respectively.

**NOTE 10 NOTES PAYABLE**

In 2014, TBH agreed with a utility to install energy efficient lighting with a cost to TBH of \$52,258 financed through a 12-month interest-free loan. The agreement calls for principal payments of \$4,355 per month once the project is completed. The project was completed in 2015 and the balance of the loan was \$17,419 at December 31, 2015.

In 2014, TBH entered into an agreement with a utility to install an environmental management system. TBH's portion of the cost was \$15,530 which was financed through a 12-month interest-free loan. The agreement calls for principal payments of \$1,294 per month and the balance of this loan was \$1,294 at December 31, 2014. The loan was fully paid in 2015.

In 2013, TBH entered into an agreement to finance \$11,087 of equipment. The agreement bears no interest and calls for principal payments of \$462 per month. The amount due on this agreement at December 31, 2014 was \$4,266. The loan was fully paid in 2015.

**NOTE 11 LINE OF CREDIT**

TBH has a \$500,000 line of credit with Citizens Bank. The line of credit does not have a maturity date; however, it is reviewed by the bank annually. The line of credit bears interest at the bank's prime rate, 3.50% at December 31, 2015 and 2014, and is secured by all accounts receivable. As of December 31, 2015 and 2014, TBH had no outstanding advances against this line of credit.

**NOTE 12 DERIVATIVE INSTRUMENT**

TBH uses an interest rate swap to manage interest rate risk exposure. TBH's interest rate swap effectively mitigates exposure to interest rate risk, primarily through converting portions of floating rate debt under the bond agreement to a fixed rate basis. This agreement involves the receipt of floating rate amounts in exchange for fixed rate interest payments over the life of the agreement without an exchange of the underlying principal amounts. TBH does not enter into derivative instruments for trading or speculative purposes.

TBH's interest rate swap has been recorded as a liability in the balance sheet at fair value. Changes in fair value are recorded as gains or losses on interest rate swap in the period incurred.

As a result of the use of a derivative instrument, TBH is exposed to risk that the counterparties will fail to meet their contractual obligation. To mitigate the counterparty risk, TBH only enters into contracts with selected major financial institutions based upon their credit ratings and other factors, and continually assesses the creditworthiness of counterparties. At December 31, 2015 and 2014, the counterparty to TBH's interest rate swap has investment grade ratings. To date, the counterparty has performed in accordance with its contractual obligation. The swap contains no credit risk-related contingent features in TBH's interest rate swap nor does the swap contain provisions under which TBH has, or would be required, to post collateral.

The fair value of TBH's swap outstanding at December 31, 2015 and 2014 was as follows:

2015				
Notional Amount	Termination Date	Interest Rate Received	Interest Rate Paid	Fair Value
\$12,065,000	June 1, 2024	67% of the One-Month LIBOR (.43% at 12/31/2015)	3.66%	\$ 1,884,250

**NOTE 13 OPERATING LEASES**

TBH leased office equipment under operating lease agreements that were terminated in 2014. Lease related expense which included charges for certain maintenance services and other fees, totaled \$5,047 for the year ended December 31, 2014; no such payments were made in 2015.

**NOTE 14 EMPLOYEE BENEFIT PLANS**

TBH maintains an Employer Contributory Tax Deferred Annuity Plan (or TDA) as described in Internal Revenue Code Section 403(b). The plan allows an employee to contribute up to a maximum percentage as computed by federal law based upon salary. In 2013, the TDA was amended to allow discretionary matching contributions to be made in the year following the plan year and, in 2013, the board approved a matching contribution of 50% of an employee's contribution up to 2% of the employee's gross wages. Prior to 2013, TBH matched 50% of an employee's contribution up to 1% of the employee's gross wages every month. Employer contributions are fully vested in the TDA after five years of continuous service to TBH. TDA expense for the years ended December 31, 2015 and 2014 totaled \$91,964 and \$81,969, respectively.

TBH also maintains Supplemental Executive Retirement Arrangements (or SERAs) as described in Internal Revenue Code Section 457(b) for its four officers. These SERAs, which are approved by board vote, provide for additional compensation of 5% to 15% to each officer on the condition the funds are contributed to a qualified SERA account or, in the event the contribution exceeds annual limitations established by the IRS, to the employee's TDA account. SERA expense for the years ended December 31, 2015 and 2014 totaled \$50,877 and \$53,375, respectively. Included in investments at December 31, 2015 and 2014 is \$404,922 and \$359,418, respectively; of investments related to TBH's 457(b) plan; the corresponding liability is recorded in accrued expenses.

TBH's endowment assets consist of donor-restricted and board-designated funds, managed by the organization, and of interests in trusts managed by third parties. The value of endowment funds equals investments (less any non-endowment investment holdings), beneficial interests in perpetual trusts, and endowment funds held in cash. Net assets of temporarily restricted endowment funds exclude pledges receivable and amounts expected to be expended in the next year to meet donor restrictions.

**NOTE 16 SELF-INSURED HEALTH INSURANCE**

TBH is a participating employer in the Aurum Network, LLC Partially Self-Funded Employee Health Benefits Plan (the Plan), whereby health insurance coverage is provided for some of its employees and administered through a third-party administrator and Tufts Health Plan. The Plan covers the health costs of enrolled participants up to a maximum of \$250,000 per medical occurrence, after which a stop loss health insurance policy covers the excess. The administrative costs of the Plan are shared by the participating employers based upon employee enrollment. TBH's share of the plan's costs amounted to approximately \$56,000 and \$69,000 for the years ended December 31, 2015 and 2014, respectively.

At December 31, 2015, the third-party administrator could not determine an estimate for material asserted or unasserted claims; therefore, no provision for such additional expenses has been reflected in the financial statements.

**NOTE 17 MEDICAL MALPRACTICE CLAIMS**

TBH purchases professional and general liability insurance to cover medical malpractice claims. Through December 31, 2015, TBH was covered by a claims-made policy. TBH is not aware of any known claims and incidents, nor any claims from unknown incidents, that have been or may be asserted arising from services provided to patients. Based on historical evidence, TBH believes that a reserve for claims from unknown incidents is not necessary and, as such, no reserve has been accrued in the financial statements as of December 31, 2015 or 2014.

**NOTE 18 CONTINGENCIES**

A significant portion of TBH's net revenues and accounts receivable are derived from services reimbursable under the Medicaid and the Medicare programs. There are numerous healthcare reform proposals being considered on the federal and state levels. TBH cannot predict at this time whether any of these proposals will be adopted, or if adopted and implemented, what effect such proposals would have on TBH.

A significant portion of TBH's revenues are derived from services reimbursable under the Medicaid program (see Note 2). The base year costs utilized in calculating the Medicaid prospective rates are subject to audit which could result in a retroactive rate adjustment for all years in which that base year's costs are utilized in calculating the prospective rate. It is not possible at this time to determine whether TBH will be audited or if a retroactive rate adjustment would result.

A portion of TBH's revenues are derived from services under the Medicare program (see Note 2). Under the program, cost reports are subject to audit for a period of three years from the date of issuance of a Notification of Provider Reimbursement by the fiscal intermediary. It is not possible at this time to determine whether TBH will be audited or if a retroactive rate adjustment would result.

**NOTE 19 DEVELOPMENT COSTS**

In August 2015, TBH gained approval from the Boston Redevelopment Authority to build a 36-unit apartment building serving persons with disabilities on a parcel of land owned by TBH at 2045 Dorchester Avenue in Boston, Massachusetts. Through December 31, 2015, TBH has incurred predevelopment costs related to the project totaling approximately \$298,000 consisting of consulting, architect, and engineer services. As of December 31, 2015 and 2014, approximately \$204,000 and \$55,000 of these costs have been capitalized. TBH has several cancellable agreements with consultants, architects, and engineers related to this development. At this time, it is uncertain whether the apartment will be built, and if so, when construction would occur.
