INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Seven Hills Foundation and Affiliates  
Worcester, Massachusetts

**Report on the Financial Statements**

We have audited the accompanying combined financial statements of Seven Hills Foundation and Affiliates which comprise the combined statement of financial position as of June 30, 2015, the related combined statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the combined financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these combined financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Seven Hills Foundation and Affiliates as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Accounting estimates

The preparation of combined financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenue and expenses. Actual results could differ from those estimates.

Subsequent events

The Foundation has evaluated the financial statement impact of subsequent events occurring through November 10, 2015, the date that the financial statements were available to be issued.

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Method of accounting

The combined financial statements have been prepared on the accrual method of accounting. Accordingly, assets are recorded when the Foundation obtains the rights of ownership or is entitled to claims for receipt, and liabilities are recorded when the obligation is incurred.

Financial statement presentation

The Foundation presents information regarding its financial position and activities according to three classifications of net assets described as follows:

Unrestricted - All resources over which the governing board has discretionary control. The governing board may elect to designate such resources for specific purposes. This designation may be removed at the board's discretion.

Temporarily Restricted - Resources accumulated through donations or grants for specific operating or capital purposes. Such resources will become unrestricted when the requirements of the donor or grantee have been satisfied through expenditure for the specified purpose or program or through the passage of time.

Permanently Restricted - Endowment resources accumulated through donations or grants that are subject to the restriction in perpetuity that the principal be invested. Investment income may be either an unrestricted or temporarily restricted resource when earned, determined according to the gift instruments.

The combined financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

Concentration of credit risk

The Foundation maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Foundation has not experienced any losses in such accounts. The Foundation believes it is not exposed to any significant credit risk on cash and cash equivalents.

Accounts receivable

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts. The reserve for uncollectible accounts is recorded based on management's analysis of specific accounts and their estimate of amounts that may be uncollectible. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

NOTES TO COMBINED FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions receivable

Contributions receivable are unconditional promises to give that are recognized as contributions when the promise is received. Contributions receivable that are expected to be collected within one year are reported at their net realizable value. Contributions receivable that are expected to be collected in more than one year are recorded at fair value at the date of promise. That fair value is computed using a present value technique applied to anticipated cash flows. Amortization of the resulting discount is recognized as additional contribution revenue. Such discounts were not material to the financial statements as of June 30, 2015 and 2014. The allowance for uncollectable contributions receivable is determined based on management's evaluation of the collectability of individual promises. Promises that remain uncollected more than one year after their due dates are written off unless the donors indicate that payment is merely postponed.

Investments

Investments in equity securities with readily determinable fair values and all debt securities are reported at fair value. Alternative investments which do not have readily determinable fair values are carried at estimated fair values using the net asset value per share of the investment as reported by the investment managers. The Foundation reviews and evaluates the net asset values reported by the investment managers and has determined that the net asset values are calculated in a manner consistent with the measurement principles of FASB ASC Topic 946 as of the balance sheet date. Those estimated fair values may differ significantly from the values that would have been used had a ready market for these securities existed.

Gains or losses on investments are reported in the statement of activities as increases or decreases in unrestricted net assets unless their use is temporarily or permanently restricted by explicit donor stipulations or by law. Investment income is recorded in unrestricted assets unless its use is temporarily or permanently restricted by explicit donor stipulations.

Endowment funds

The Foundation's endowment consists of both donor restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed or legal restrictions. Endowment funds include invested gifts.

The Board of Directors has interpreted state law as allowing the utilization of appreciation on permanently restricted assets unless explicit donor stipulations specify how net appreciation must be used. As a result of this interpretation, the Foundation classifies as permanently restricted net assets: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by state law.

In accordance with the Uniform Prudent Management of Institutional Funds Act, the Foundation may consider the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: the duration and preservation of the fund; the purposes of the organization and the donor-restricted endowment fund; general economic conditions; the possible effect of inflation and deflation; the expected total return from income and the appreciation of investments; other resources of the organization; and the investment policies of the organization.

SEVEN HILLS FOUNDATION AND AFFILIATES  
NOTES TO COMBINED FINANCIAL STATEMENTS  
(Continued)

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Endowment funds (continued)

The Foundation has adopted investment and spending policies for its board-designated endowment assets that attempt to provide a predictable stream of funding for its programs while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the Board, the Foundation's Investment Committee shall seek to invest the endowment funds in such a manner that the investments will provide a spendable return consistent with a long-term goal of preserving the funds in real terms. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation has invested in debt and equity securities that target a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor imposed restrictions require the Foundation to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are reported in unrestricted net assets. There were no such deficiencies as of June 30, 2015.

Loan acquisition costs

Loan acquisition costs represent fees and other costs associated with obtaining long-term financing. Such costs are being amortized on a straight-line basis, which approximates the level yield method, over the terms of the related debt obligations. The difference between straight line amortization and level yield method of amortization is not material to the combined financial statements.

Investment in unconsolidated affiliates

The Foundation has varying levels of investments in Group 7 Design, Inc., Empirical Asset Management, LLC, and Honeydrop, Inc. which are accounted for by the equity method.

Property, plant, and equipment

All acquisitions of property, plant, and equipment in excess of \$5,000 are capitalized. Property, plant, and equipment are carried at cost. Depreciation and amortization are computed using the straight-line method.

Derivative instruments

Derivative instruments, including interest rate swaps, are recorded on the balance sheets as either assets or liabilities measured at their fair value. All changes in the fair value of derivatives are recognized currently in the statement of activities of not-for-profit organizations.

Rent, vending, service fees

Rental income represents amounts received from residents of residential homes. Vending income represents amounts received under the vocational services program. Service fees represents amounts received under the respite care, and various day programs.

NOTES TO COMBINED FINANCIAL STATEMENTS

1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions, gifts, grants

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and nature of any donor imposed restrictions. Contributions may include actual gifts or promises to give. Such contributions are considered to be available for unrestricted use unless specifically restricted by the donor or grantor. Contributions of assets other than cash are recorded at their fair value on the date of the gift. Gifts of long-lived assets are reported as unrestricted support, unless specifically restricted by the donor. Time restrictions on gifts of long-lived assets, if any, expire when the assets are placed in service. Restricted gifts or promises to give are required to be reported as restricted support in the period received and are then reclassified to unrestricted net assets upon satisfaction of the donor restriction.

Functional expenses

Expenses are charged to each program based upon direct expenditures incurred. Expenditures not directly chargeable are allocated to each program based upon related payroll costs.

Impairment of long-lived assets and long-lived assets to be disposed of

The Foundation reviews the carrying values of certain long-lived assets and certain identifiable intangibles whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Where indicated, the carrying value of such assets is reduced through a charge to operations. The adjusted carrying values represent management's estimate of the amount expected to be recovered from these assets in the future.

Contributed facilities

Four residential programs and one day program operated by Seven Hills Rhode Island are located in buildings owned by the State of Rhode Island and are provided to Seven Hills Rhode Island at no cost. The estimated value of this space (\$386,400 for the period ended June 30, 2015) has been recorded in the combined statement of activities as both a revenue and expense item.

Donated services

Certain employees of the Commonwealth of Massachusetts donate their services to the Foundation. Donated services amounting to \$29,292 in 2015 and 2014 are reflected in the accompanying combined financial statements. The accompanying combined financial statements do not reflect other donated services since no objective basis is available to measure the value of such services.

Advertising and promotion

All costs associated with advertising and promoting the Foundation are expensed in the year incurred. Advertising expense was \$375,991 and \$316,829 in 2015 and 2014, respectively.

Measure of operations

In its statement of activities, the Foundation includes in its definition of *operations* all revenues and expenses that are an integral part of its programs and supporting activities. Changes in the Foundation's contributions associated with mergers and fair values of interest rate swap agreements are recognized as non-operating activities.

This advance has been classified as long-term debt as these funds are to be repaid to the State of Rhode Island at the termination of the agreement. However, it is anticipated that the programs will continue to operate and the State of Rhode Island will continue to provide these funds.

10 - HEDGING INSTRUMENT

The Foundation maintains an interest-rate risk-management strategy that uses derivative instruments to minimize significant, unanticipated earnings fluctuations caused by interest-rate volatility.

The Foundation has entered into three interest rate swap agreements related to its long-term debt. The swaps are utilized to manage interest rate exposures and are designated as a highly effective cash flow hedges. The differential to be paid or received on the swap agreements is accrued as interest rates change and is recognized over the life of the agreement in interest expense. The swap agreements are as follows:

5,500,000	1.3050%		September, 2018	110,573
				<u>\$ 824,351</u>

**13 - STATE SURPLUS REVENUE RETENTION**

The Commonwealth of Massachusetts has regulations governing the excess of state revenue over expenses for not-for-profit organizations subject to the Division of Purchased Services' Authority. Such a surplus, up to 5% of current year state revenue, shall be retained by the organization for its charitable purposes. The sum of these annual surpluses may not exceed 20% of the organization's prior year state revenues. If an organization has a surplus in excess of the 5% or 20% rules, the Commonwealth may stipulate the use of such excess by the Agency, request the return of the surplus to the state, or reduce state funding in future years. Amounts within the 5% or 20% rules are included in net assets. Any amount in excess of these rules is owed to the Commonwealth.

Through June 30, 2015, the Foundation did not have surpluses in excess of the 5% or 20% rules. As of June 30, 2015, the Foundation's surplus revenue retention was \$(1,964,682) calculated as follows:

The Foundation has deferred compensation agreements providing benefits to certain key employees commencing at retirement. Deferred compensation expense related to these agreements was \$396,301 and \$194,004 in 2015 and 2014, respectively. These amounts are required to accrue the present value of benefits at retirement.

The Foundation is the owner and beneficiary of life insurance policies on the lives of certain management. The policies had an aggregate cash surrender value of \$3,386,686 and \$2,957,557 at June 30, 2015 and 2014, respectively.

The Foundation has claims and pending legal proceedings. The proceedings are, in the opinion of management, ordinary routine matters incidental to the normal business conducted by the Foundation. In the opinion of management and the Foundation's outside legal counsel, such proceeding is not expected to have a material adverse effect on the Foundation's financial position, results of operations or cash flows.

The Foundation has signed non-interest bearing facilities consolidation promissory notes with the Community Economic Development Assistance Corporation that is secured by real estate. The terms of the agreements require the Foundation to hold the properties for a period of 30 years. In the event the Foundation disposes of these properties prior to the required timeframe, the entire principal balance(s) will become due.

As of year-end, the Foundation had approximately 178 employees who are represented by Local 5068, United Nurses & Allied Professionals. The Foundation has negotiated a six month contract extension through December 2015.

The contracts with the states have been expended according to their respective terms contained in the agreements and are subject to possible final audit determination by certain governmental agencies. In the opinion of management, the results of such audits, if any, will not have a material effect on the combined financial position of the Foundation as of June 30, 2015, or on the changes in net assets for the year then ended.

The Foundation has construction in process for significant capital projects. Remaining commitments on construction contracts were \$563,953 at June 30, 2015.

The Foundation has a 6% ownership in an unconsolidated affiliate which is the investment advisor of certain investments in the amount of \$634,887.

21 - FAIR VALUE MEASUREMENTS

The Foundation follows the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC Topic 820) which provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted, quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: Valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Valuation is based on observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

SEVEN HILLS FOUNDATION AND AFFILIATES  
 NOTES TO COMBINED FINANCIAL STATEMENTS  
 (Continued)

21 - FAIR VALUE MEASUREMENTS (Continued)

Level 3: Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

*Equities, U.S. government securities, money market funds and corporate debt securities:* Valued at the closing price reported on the active market on which the individual securities are traded.

*Privately managed partnership - hedge funds:* The Foundation, as a practical expedient, estimates the fair value of its alternative investments based on the net asset value (or its equivalent) as reported by the fund manager. The Foundation has evaluated the audited financial statements of its holdings as of the balance sheet date and believe that reported net asset value (or its equivalent) is calculated consistent with the guidance of ASC 820-10-35-59. Classification within the fair value hierarchy is based on the existence of restrictions on the Foundation's ability to access its holdings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Foundation's financial assets that are measured at fair value on a recurring basis were recorded using the fair value hierarchy at June 30, 2015 as follows:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Partnership - Hedge funds (a)	\$ 858,931	\$ -	monthly	30 days

(a) This privately managed partnership fund seeks to exploit fundamental flaws in valuation in order to provide investors with certain advantages that are not usually provided by most hedge funds including, but not limited to, low trading costs and favorable tax treatment. Gains will be provided by equities held long term while the equities that create losses will generally be held for less than one year. The fair value of the investments in this category has been estimated using the net asset value per share of the investments.

The Foundation's financial liabilities that are measured at fair value on a recurring basis were recorded using the fair value hierarchy at June 30, 2015 as follows:
